Tornado Microbar

Redtronic's Tornado Microbar is designed to incorporate a compact sleek design whilst providing the ultimate light output to meet R65 Class II in amber and blue. The Tornado Microbar is available in a variety of mount options whether you require a permanent or temporary mount making it the perfect solution for a variety of vehicle applications from emergency services and covert vehicles to amber safety and commercial vehicles. This product also boasts major industry requirements such as IP69K, EMC R10, ECE R65 approvals and comes as standard with 7 flash patterns including ICAO/CAP168 airport pattern. It features ultra-bright latest generation LEDs under an ultra-strong UV stabilised polycarbonate lens offering multiple lens colour options and LED colours. The Tornado Microbar is tough enough for any job and that is why it has been designed for a fit-and-forget purpose and has a 2-year warranty.

MTNS-001-AA	Amber	Amber	11-32VDC	Suction Cup	2 years

Features and Benefits

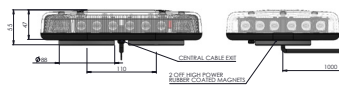

- Ultra-bright latest generation LED's
- Ultra-strong UV stabilised polycarbonate lens
- Lens colour options: amber, blue and clear
- Low current draw: 2.4 amps max at 12VDC
- Synchronisation capability with other Redtronic products
- Dekra Speed Rating: 153mph (246.2km/h) mag mount
- Operating Temperature: -40 to +105°C
- Multiple mount options available
- Multi-function cigarette plug (mag and suction)
- High profile bracket available: SP_TMBHP
- AutoDIM module available: SP_TMBAD
- R65 Class II approved blue and amber
- IP69K protection against dust & water ingress
- CAP168/ICAO airport flash
- EMC R10 compliant
- 11-32VDC operation
- 7 flash patterns
- 2 year warranty
