

'LXB' LED BEACONS

NEW RANGE OF AMBER AND GREEN LED COMBINATION BEACONS

INTRODUCING THE NEW 'LXB' LED BEACON RANGE, COMBINING AMBER AND GREEN LEDS IN ONE BEACON TO CREATE AN IDEAL SOLUTION TO SEAT BELT APPLICATIONS.

Designed to eliminate the need for two separate amber and green beacons, the new 'LXB' range combines the two colours into one beacon. Ideal for all types of plant, construction and agricultural applications using amber and green seat belt systems.

KEY POINTS

APPLICATIONS

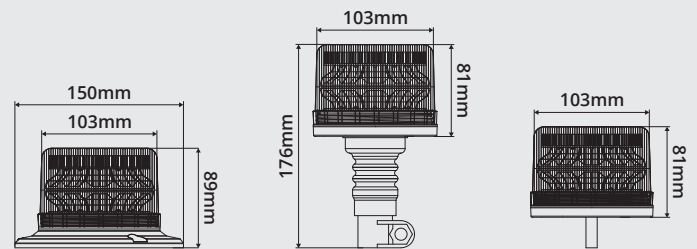

MAIN FEATURES

- ✓ Multi-voltage (10-30V)
- ✓ Three selectable flash patterns (single, double & rotating)
- ✓ Manufactured with 12 x amber and 12 x green 1W LEDs
- ✓ Amber only flash when seat belt is disengaged
- ✓ Alternate amber/green flash when seat belt is engaged
- ✓ Standard 130mm PCD for 3-point model (LXB050AG)
- ✓ Quick-release mini plug on LXB040AG for ease of replacement

'LXB' RANGE

DIMENSIONS

FLASH PATTERN

Choose between 3 selectable flash patterns including simulated rotating.

QUICK-RELEASE PLUG

Quick-release mini plug on the LXB040AG flexi-DIN enables the simple swap of beacons if damaged.

SEAT BELT KITS

Combine any 'LXB' beacon with the LAP912 seat belt to create a complete seat belt & beacon kit. Contact the LAP sales team for more information.
