## EW2000 SERIES

### Oval LED Spotlight

ECCO's EW2000 Series LED Pedestrian Spotlights' are designed specifically for material handling applications to provide a visual warning for pedestrians in the vicinity of mobile equipment. These lights are intended as a supplemental safety device in addition to a 360° warning light and project a bright, 300 lumen spot beam (available in blue or red) onto the ground either in front or to the rear of the vehicle. This additional safety feature is especially useful where blind corners are present (i.e. warehouse racking) and is likely to be seen by pedestrians that are not looking up or paying close attention to their surroundings. Featuring 10-60 VDC operation, an aluminum housing and polycarbonate lens the EW2000 is extremely resistant to impact and vibration damage and has an IP67 ingress protection rating.

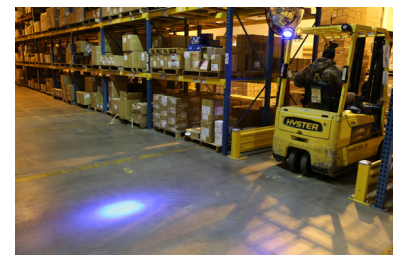

### Dimensions

### Models

PART NO.	COLOUR	VOLTAGE	LUMENS	TYPE
EW2000B	Blue	10-60	300	Spot
EW2000R	Red	10-48	450	Spot

### Application images

### Features and Benefits

- Blue or Red illumination
- Four 3-watt LEDs
- Pedestrian warning for material handling applications
- Polycarbonate lens
- Aluminium heatsink housing
